TECHNICAL PROFILE

Final-year IT Programming Student at NSCC with a focus on full-stack development and data-driven solutions. Proven ability to solve complex problems through code, as demonstrated by international robotics competition success. Eligible for the Graduate to Opportunity (GTO) hiring subsidy starting May 2026.

TECHNICAL SKILLS

- Languages: **SQL** (Relational Databases), **JavaScript/HTML/CSS** (Web Dev), **Python/Java/C/C++/C#**.
 - Specializations: Mobile Application Development, Data Analysis (Excel), Project Management.
 - Tools/Frameworks: **Git/GitHub**, Relational Database Management Systems (RDBMS).
-

TECHNICAL PROJECTS

Riot Games API Stats Hub | 2025

- Developed a full-stack application that interfaces with the **Riot Games API** to fetch, process, and visualize real-time player statistics.
- Managed complex JSON data structures and implemented asynchronous data fetching to ensure a responsive user experience.

Data Structures & Algorithms Implementation | 2024 – 2025

- **Maze Solver:** Engineered a pathfinding tool using **Stacks** to solve complex mazes via backtracking algorithms.
- **Spell Checker:** Optimized word-search performance by implementing a **Binary Search Tree (BST)** for high-speed dictionary lookups.
- **Command Line Editor:** Built a functional terminal-based editor using **Linked Lists** to manage dynamic text insertion and deletion.

Lead Programmer – FIRST Robotics Competition (Surrey, BC) | 2022 – 2023

- Designed and programmed a competitive robot using sensor feedback to automate tasks, winning the **Excellence in Engineering Award**.
 - Collaborated in a high-pressure team to debug and deploy **Java-based** updates during international trials.
-

EDUCATION

IT Programming Diploma (2-Year Program) | 2024 – 2026

Nova Scotia Community College (NSCC)

- Relevant Coursework: Data Fundamentals, Web Development, Mobile Development, Project Management.

High School Diploma | *Northumberland Regional High School*

PROFESSIONAL EXPERIENCE

Kitchen Supervisor / Cook | *A&W, Nova Scotia* | 2024 – Present

- Manage inventory levels and waste data to optimize kitchen efficiency and cost control.
 - Lead kitchen operations in a high-volume, fast-paced environment while maintaining strict quality standards.
 - Demonstrated reliability and leadership by training new staff on operational procedures.
-

AWARDS & CERTIFICATIONS

- Excellence in Engineering Award (FRC 2023)
- 1st Place – Fryer Math Competition (2020)
- WHMIS Certification
